

Report on Women Development & Self Respect

(Delivered by Principal Mam Dr. Snehal Donde.)

We all students have attended the lecture on women development & self-respect by our respected principal Dr. Snehal Donde Mam 7th January, 2017.

She started her lecture by saying that in today world women are more smarter and stronger than men, then why they have to be dependent on any one else.

She told us that women have more tolerance power than man, but it doesn't mean that they have to tolerant the violence of any type.

She taught us that the self-respect of women is the main strength in themselves. so the women should not compromise their self-respect at any cost.

The lecture delivered by mam was awesome and energetic. It gave boom to all the girls sitting in lecture.

We are very much thankful to mam for giving such beautiful lecture. We will follow up the things which you taught us.

Thank you.
